

Embed Voki and other Gadgets on Your Weebly Pages

There are many websites with gadgets, slide shows, and videos that you can embed on your webpage. When you embed something it appears on that page, you don't have to click a link to go to it.

For example, **Voki.com** allows you to create Text-to-Speech characters that you can embed on your web pages. To embed a Voki:

1. Log in to Voki and **PUBLISH YOUR VOKI**.

2. **COPY** the embed code

Publish this Voki directly to your site

Select the size of the player to embed in your site:
Medium (200 x 267)

Then grab your code and place it on your page!

Post Bookmark

Embed code: Copy

```
pluginspage="http://www.adobe.com/shockwave/download/download.cgi?P1_Prod_Version=ShockwaveFlash" type="application/x-shockwave-flash" name="widget_name"></object>
```

3. On your Weebly page, click and drag a **CUSTOM HTML** box onto your page from the **ELEMENTS** tab and **PASTE** the code you copied into it:
